

Setting up Application Environment

Create Sendgrid Account

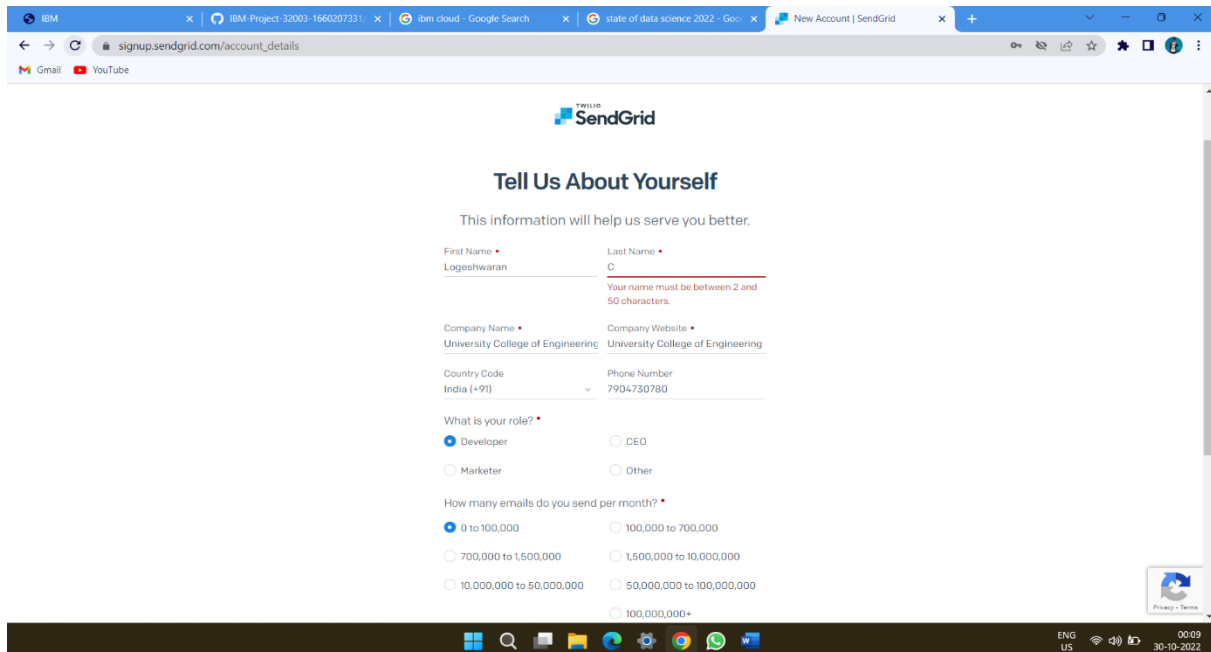

Step 1. Navigate to <https://sendgrid.com>

Step 2. Click on “Start for free” and register yourselves by entering required details and click on create account

Step 3. Further fill all required details in next page and click on get started as shown below

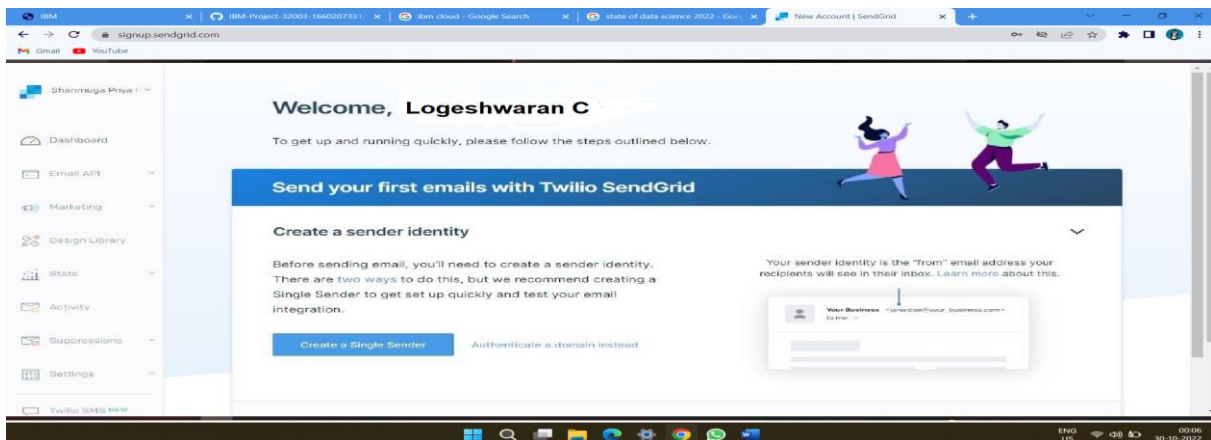

The screenshot shows the 'Tell Us About Yourself' page of the SendGrid account creation process. The page is titled 'Tell Us About Yourself' and includes a sub-header 'This information will help us serve you better.' The form contains the following fields and options:

- First Name:** Logeshwaran
- Last Name:** C (with a red error message: 'Your name must be between 2 and 50 characters.')
- Company Name:** University College of Engineering
- Company Website:** University College of Engineering
- Country Code:** India (+91)
- Phone Number:** 7904730780
- What is your role?:** Developer (selected), CEO, Marketer, Other
- How many emails do you send per month?:** 0 to 100,000 (selected), 100,000 to 700,000, 700,000 to 1,500,000, 1,500,000 to 10,000,000, 10,000,000 to 50,000,000, 50,000,000 to 100,000,000, 100,000,000+

The bottom of the page shows a Windows taskbar with the date 30-10-2022 and time 00:09.

Step 4. That's it you have created your SendGrid account and got access to dashboard

The screenshot shows the SendGrid dashboard after account creation. The user is logged in as 'Logeshwaran C'. The dashboard includes a sidebar with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area is titled 'Welcome, Logeshwaran C' and includes a 'Send your first emails with Twilio SendGrid' section. This section has a 'Create a sender identity' button and a 'Create a Single Sender' button. A tooltip explains that the sender identity is the 'from' email address and provides a link to 'Authenticate a domain instead'.

Output:

Send Grid account created successfully.
